2024.4 Customer Overview Q&A

Q1: When will the PDX channel enhancements be available to use?

A1: The PDX capabilities are available to use now, though some features might be under feature flags. Please reach out if you there are specific features you are interested in, we will be happy to help.

Q2: Do we need to have PDX in order to benefit from the AI mappings with our supplier's data?

A2: The capabilities shown in this preview requires you to have PDX (onboarding in this case) to use. If you don't have PDX onboarding and are looking for similar AI services, we will be happy to discuss option within STEP depending on your use case.

Q3: Please provide a link to the YouTube channel where this webinar can be rewatched.

A3: <https://www.youtube.com/user/StiboSystemsUS>
